

PALERA MILANO

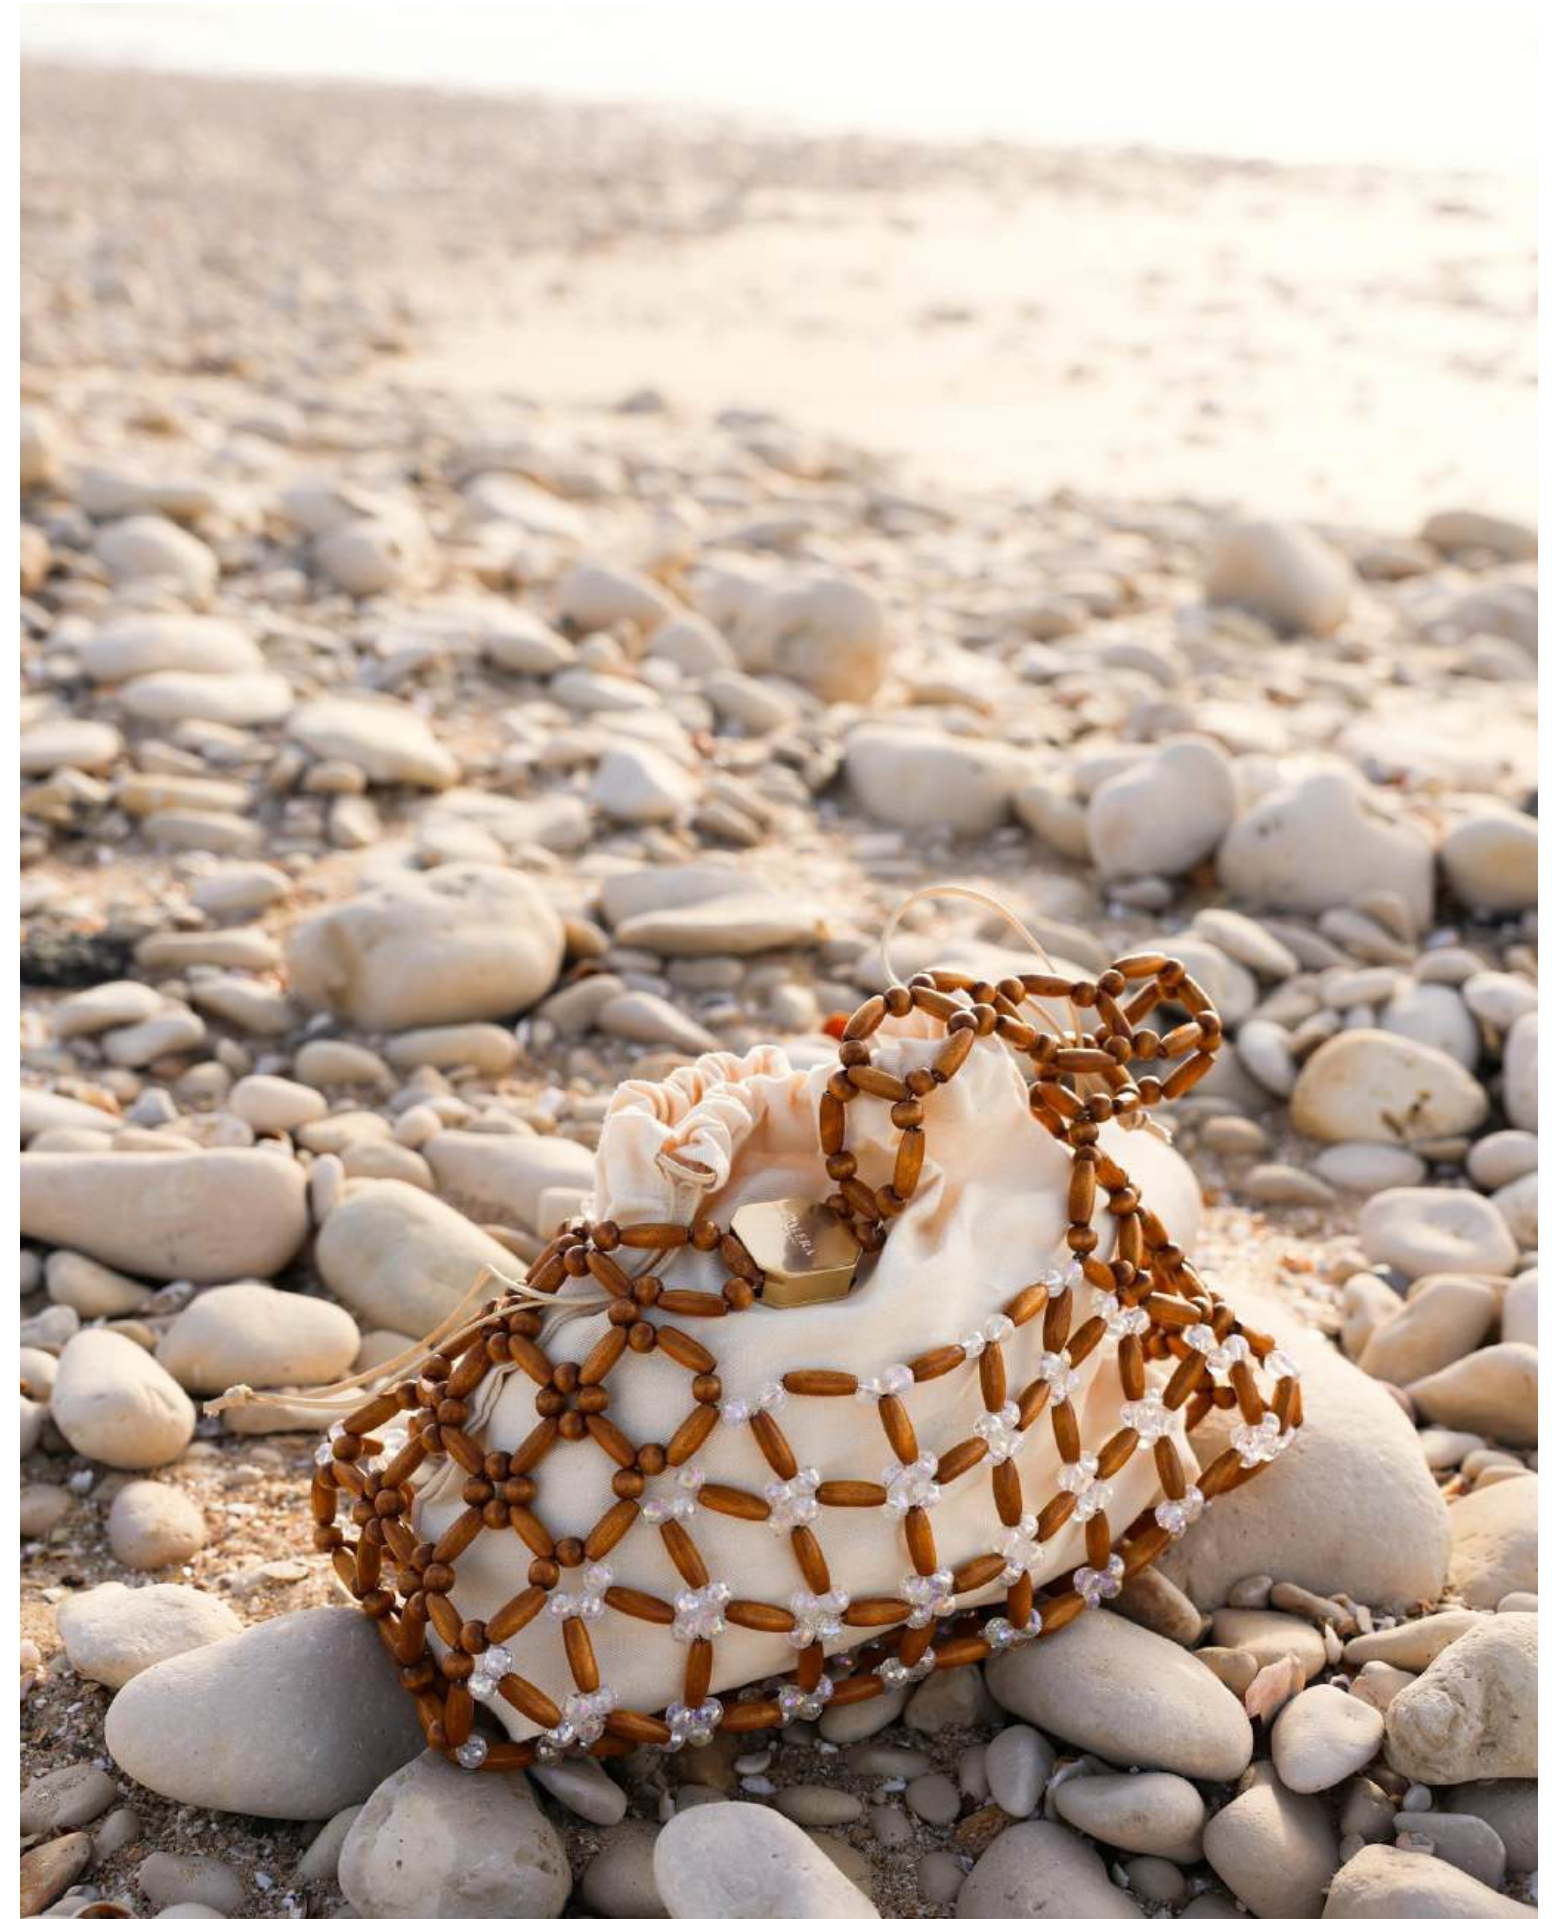

IDENTITY 2

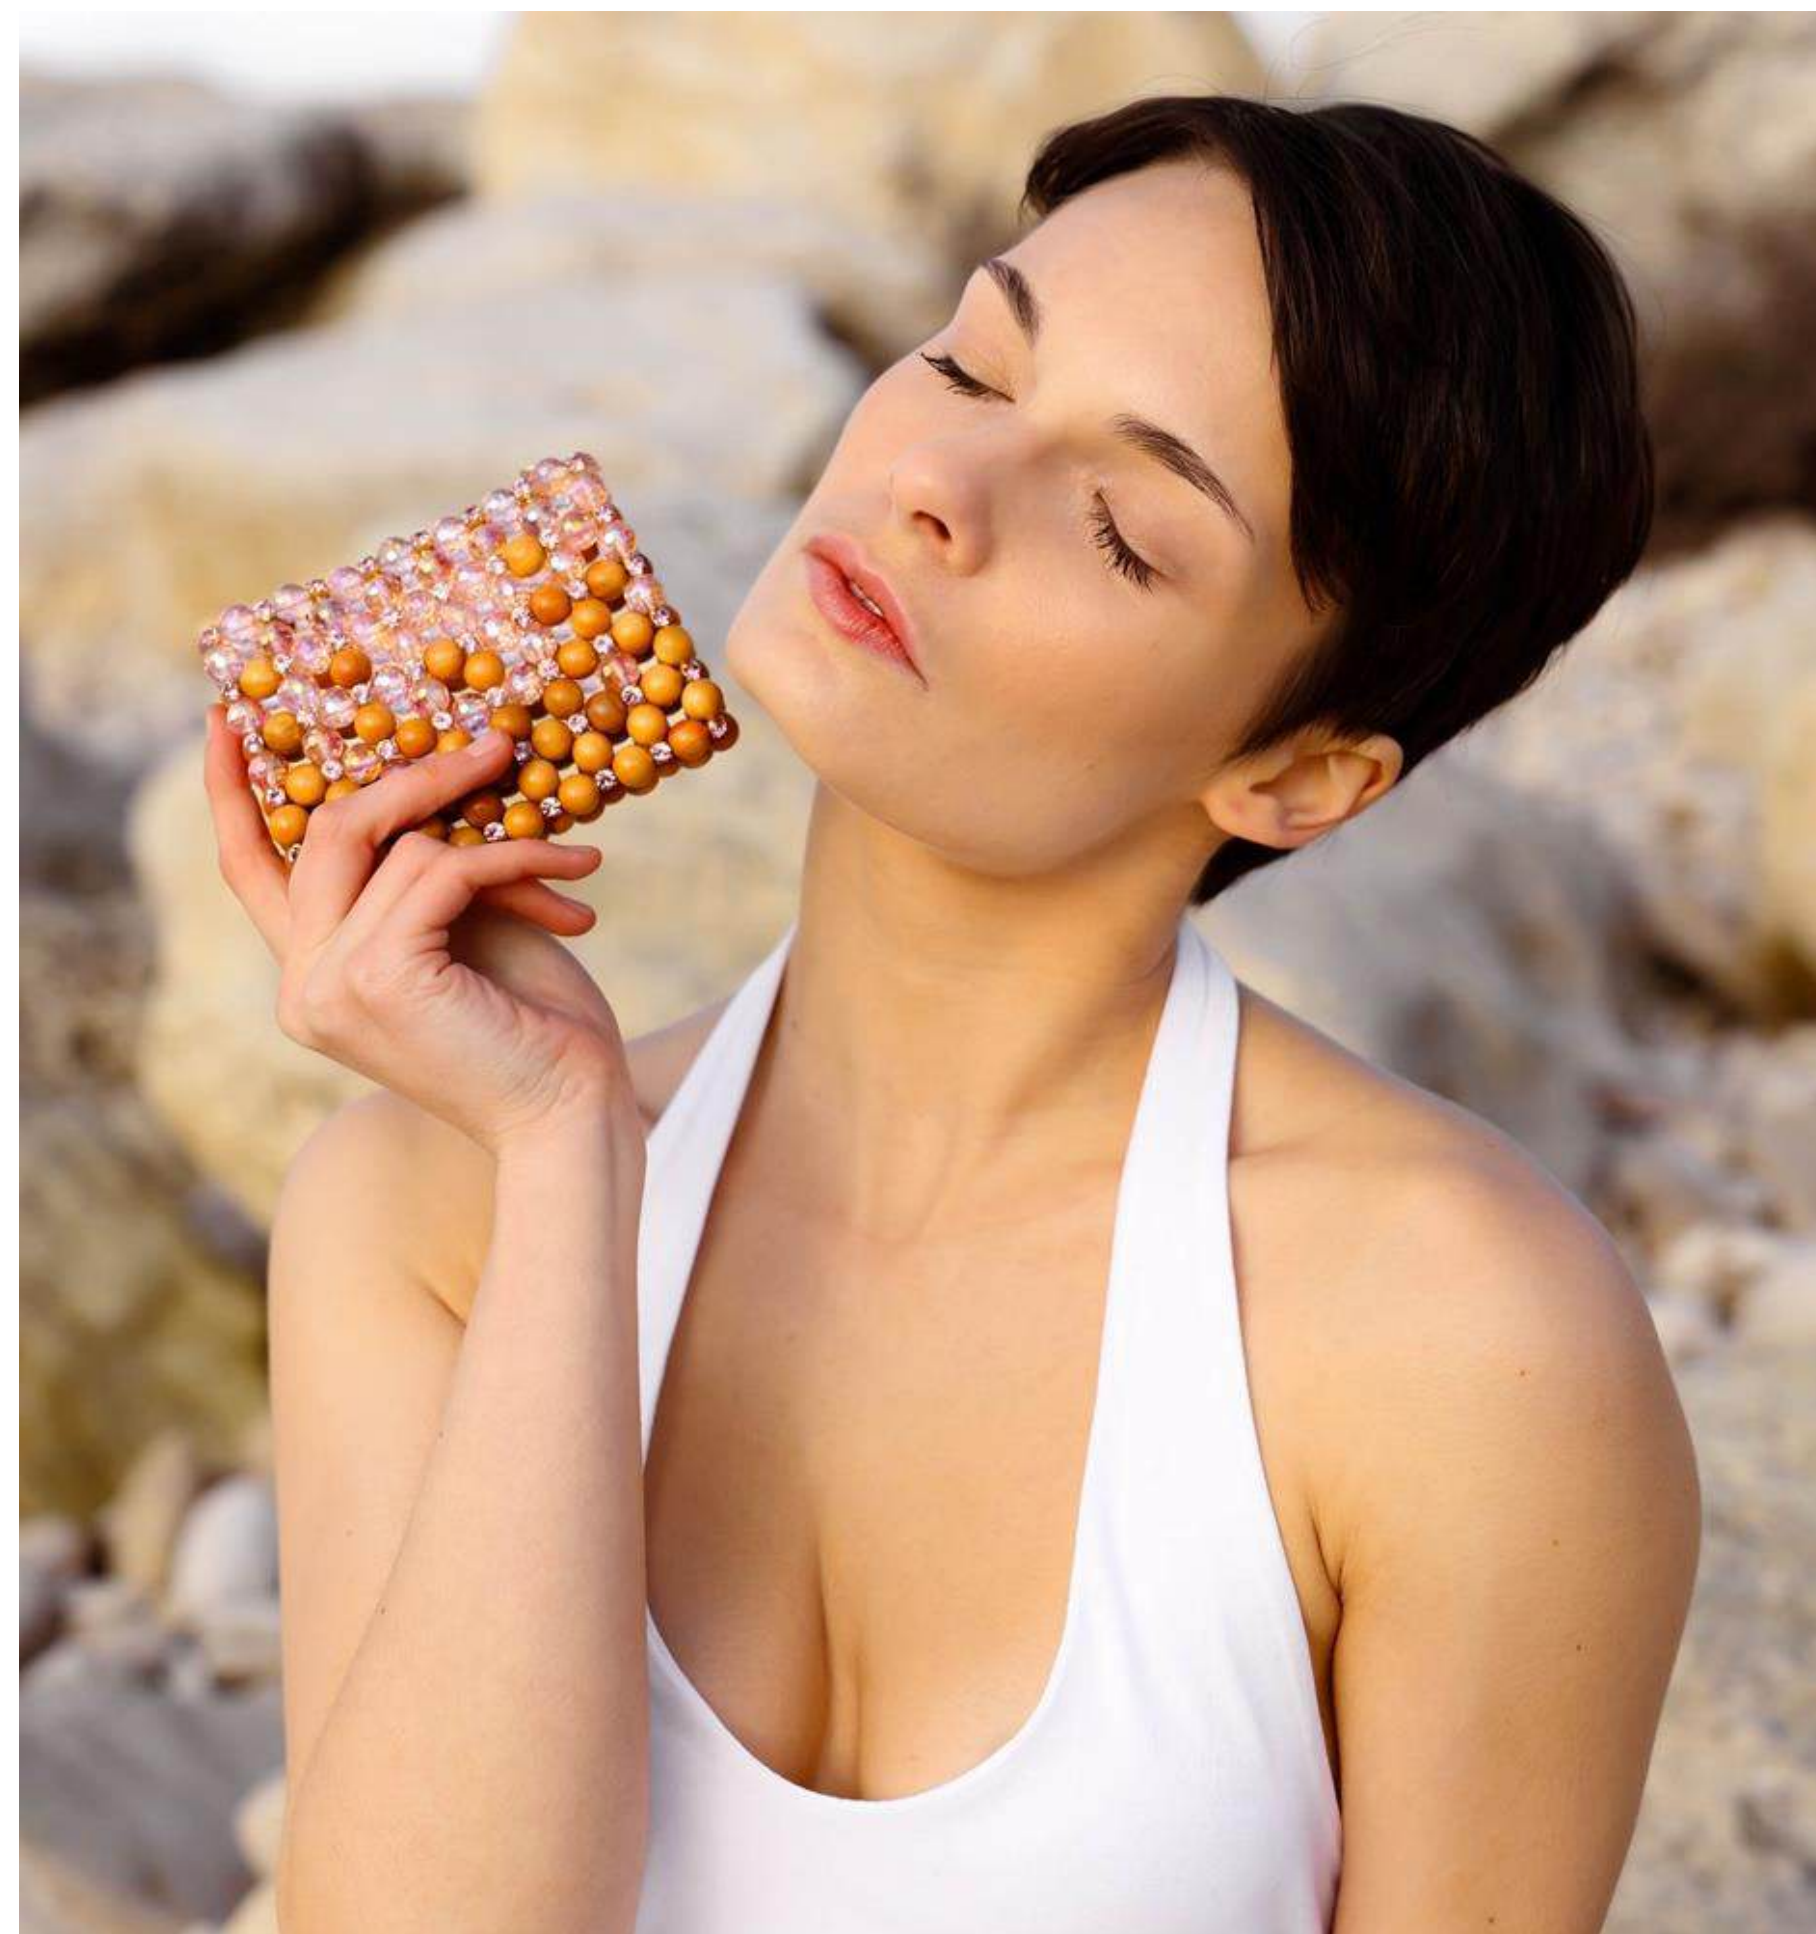

Rooted in tradition yet open to evolution, Identity 2 of 2025 expands Palera Milano's signature crystal-brass craftsmanship through new contrasts, textures, and unexpected details. This new chapter unfolds in a refined palette of deep browns, champagne, silver blues, and rare pinks — tones that evoke quiet elegance and natural depth — while introducing, for the first time, a subtle dialogue between gold and silver brass, meeting crystals in a balance never explored before. Wood emerges as a new element, bringing warmth and tactile richness to the collection, while novelties such as the Clutch Edge Short, Capri Baby, AirPods Case, and Wood Net Hobo further enrich the world of Palera Milano.

Entirely handmade in Italy, each piece reflects a vision where timeless craftsmanship meets an evolving modern spirit, preserving the house's identity while opening it to new expressions.
